

## April - Transformation for Families

### Children's Book of the Month

#### Someday by Eileen Spinelli

This story is about a little girl's plans for the future. A great book to inspire children to think about their own dreams and goals.

Ask your child, what are some things they want to do in the future? How do they think they will change as they grow up? How might they change the world around them?

### Youth Book of the Month

#### Simon vs. The Homo Sapiens Agenda by Becky Albertalli

This book is known as being one of the best Coming Out stories and has rave reviews from youth and adults. It was made into a movie that is currently in theatres as "Love, Simon". You might want to go see it as a family.

Questions: In the book, the question is asked, why don't straight (heterosexual) people need to "Come Out"? Why is straight the default? How do the characters change throughout the story?

#### Family Activities

Ask this family meeting question and try to find one simple way that could transform your family life.

Perhaps it is to spend more time together - maybe create a regular games night.

Maybe it is to be more grateful - start a family gratitude journal.

Or to do more to make the world a better place - maybe volunteer or have a monthly random acts of kindness day.
